

Embed Video in Canvas Page

If you have a .mp4 file (i.e. video), you can embed it in your Canvas course. Before beginning, be sure to upload the .mp4 to the *Files* area in your Canvas course.

1. Access the page in your Canvas course where you would like to upload the video.
2. Click **Edit**.
3. Navigate to the section where you want the video to appear on the Canvas page and click in that area.
4. Click the down arrow for the media icon (i.e. play button with music symbol).
5. Click **Course Media**.

6. In the *Add* window that appear on the right, click the .mp4 that you just uploaded to the *Files* area.
 - a. The video should appear on the page where you clicked.
 - b. If you do not see the .mp4, verify you uploaded it to the *Files* area of this course. If you still don't see the video after verifying, make sure **Course Files** and **Media** are selected.

7. Click **Save**.
