

# How do I share a Panopto recording

1) Go to your course and click on **Panopto Cloud**

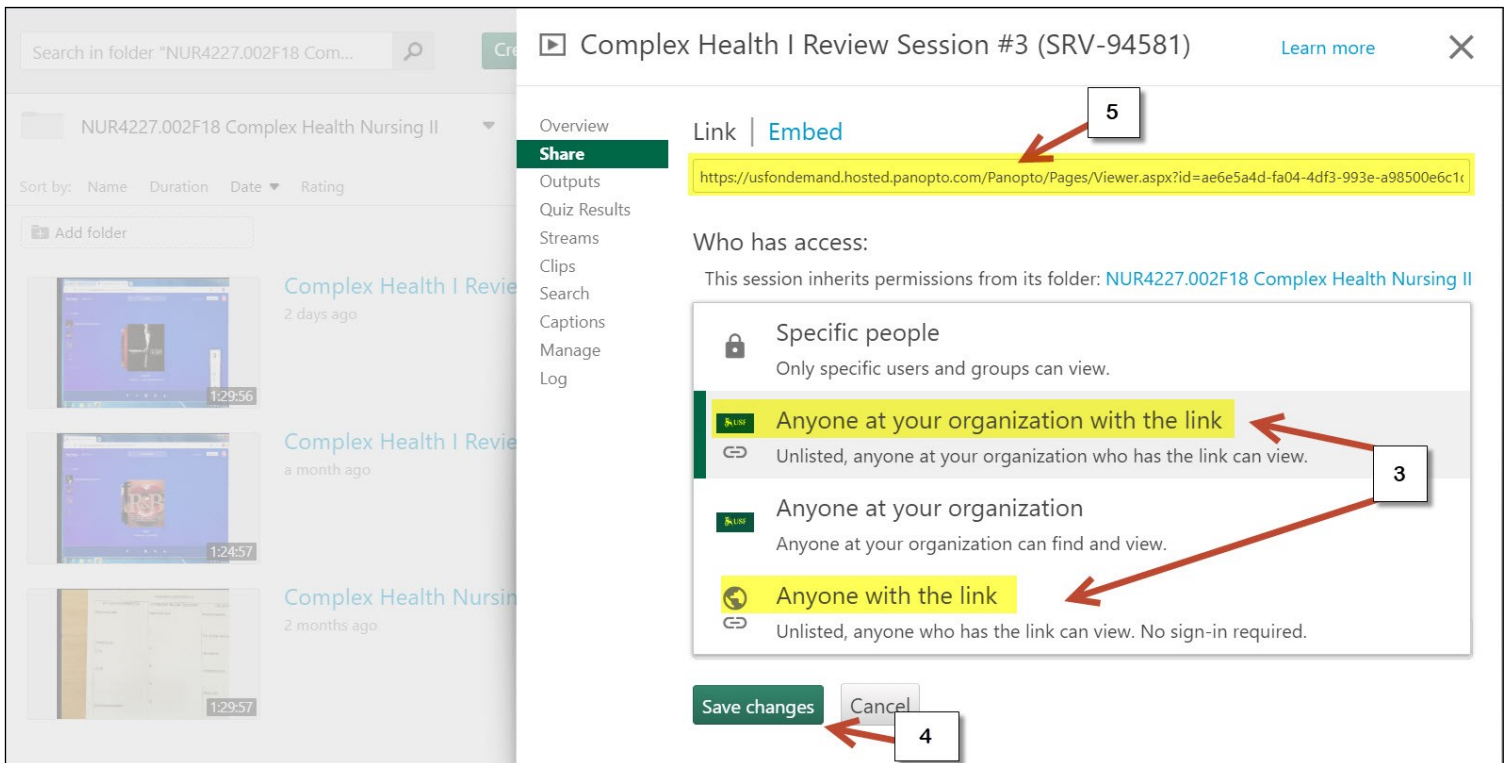

2) Click in on **Share** of the recording that you want to share with other course

# How do I share a Panopto recording

- 3) Select one of these two options in how you want to share the link. We recommend **“Anyone at your organization with the link”**
- 4) **Save changes**
- 5) Copy this link and share with other instructors or courses

The screenshot shows the Panopto sharing interface for a recording titled "Complex Health I Review Session #3 (SRV-94581)". The interface includes a search bar, a folder name "NUR4227.002F18 Complex Health Nursing II", and a list of recordings. The "Share" menu is open, showing options like "Overview", "Share", "Outputs", "Quiz Results", "Streams", "Clips", "Search", "Captions", "Manage", and "Log". The "Link" tab is selected, displaying a URL: `https://usfondemand.hosted.panopto.com/Panopto/Pages/Viewer.aspx?id=ae6e5a4d-fa04-4df3-993e-a98500e6c1c`. Below the URL, the "Who has access:" section shows that the session inherits permissions from its folder. Three sharing options are listed: "Specific people" (locked), "Anyone at your organization with the link" (selected and highlighted in yellow), and "Anyone at your organization" (highlighted in green). The "Anyone with the link" option is also highlighted in yellow. A "Save changes" button is visible at the bottom, and a "Cancel" button is also present. Red arrows and numbered callouts (3, 4, 5) point to the selected sharing option, the "Save changes" button, and the URL, respectively.

**NOTE:**  
If you want to share the entire Panopto Cloud folder with another course you need to contact **Health IS at 974-6288 (EDT cannot do this task).**
