

Reviewing Quiz Results in Honorlock

After students have completed an exam, you will be able to review the results and access the recordings. The results are available for your review for six months.

1. Click **Honorlock** from the navigation menu in Canvas.
2. Navigate to the exam students have completed and you wish to review the results for.
3. Click **Results**.

Note: The results may take up to **24 hours** to render once a student has completed an exam.

The screenshot shows the Honorlock interface within a Canvas course. The left sidebar contains navigation options like Home, Announcements, Syllabus, Modules, Discussions, Assignments, Quizzes, Honorlock, Grades, People, Microsoft Teams, Collaborations, Pages, Files, and Outcomes. The main content area displays a list of exams. The 'Module 1 Quiz' exam is highlighted, and a red arrow points to the 'Results' button next to it, labeled 'Step 3'.

4. You can filter results by high, medium, or low. This is the incident level based on the flag during the exam session. If you want to apply a filter, click the appropriate option.

The screenshot shows the 'Module 1 Quiz' results page. The 'Student Results' tab is active. The 'Filter' section shows three options: High (red), Medium (yellow), and Low (green). A red arrow points to the 'Low' filter option, labeled 'Step 4'. Below the filter, a table lists student results. A red arrow points to the 'View Session' button in the table, labeled 'Step 5'.

STUDENT	ID	EXAM STARTED	EXAM ENDED	INCIDENT LEVEL	
Test Student	4758899	08/05/2021 4:55 PM	08/05/2021 4:55 PM	Low	View Session

5. To view the recordings, navigate to the student you wish to view the results for. Click **View Session**.

Understanding the Review Session Layout

This screen is broken into four quadrants. The webcam recording and screen recording will play simultaneously.

Top Left: Capture of the student's webcam recording.

Top Right: Capture of the student's screen recording.

Bottom Left: Contain exam details (i.e. instructions), question the student is completing at that particular time, and audio transcribed (if any audio was recorded).

Bottom Right: Contain session logs. It contains each event (e.g. Student Photo, Student ID, Room Scan, questions, etc.) with a flag notification that occurred. For each question, you can see what happened (e.g. exam browser closed, webcam video issues, etc.).

Note: If you need to download the videos or pictures for academic integrity purposes, click the download icon (to the left of the play button). **Please keep in mind these results are available for six months after the exam has been completed.**

The screenshot displays a review session interface for a course named 'HL_DEMO_Sandbox'. The interface is divided into four quadrants, each with a red arrow pointing to it from a label:

- Webcam Recording:** The top-left quadrant shows a video feed of a student with glasses and a blue shirt.
- Screen Recording:** The top-right quadrant shows a screenshot of the exam interface, including a question and a timer.
- Exam Details:** The bottom-left quadrant shows the question being completed: "Which position should the term pregnant patient be placed if aortocaval compression is suspected?".
- Session Logs:** The bottom-right quadrant shows a list of events, including "Profile Picture", "ID Picture", "Webcam Video", "Screencapture Video", and several "Question" entries with status indicators like "Success" and "High".
